PROFESSIONAL SUMMARY

Software Developer with 1.5+ years of hands-on experience in designing and developing scalable, high-performance web applications. Proficient in Java, Spring Boot, RESTful APIs, and JavaScript frameworks including ReactJS and AngularJS. Experienced across the full software development lifecycle, delivering business-critical solutions in Agile environments. Skilled in performance optimization, Power BI integration, DevOps practices, and building secure, cloud-native applications with clean architecture principles.

TECHNICAL SKILLS

Languages: Java, SQL, JDBC, Servlet
Frameworks: Spring Boot, ReactJS, AngularJS
Frontend: HTML5, CSS3, Bootstrap, JavaScript
Databases: SQL Server, Azure SQL, MySQL, PostgreSQL
Cloud & DevOps: Azure (App Services, Key Vault, Logic Apps, Web Jobs), Git, Azure DevOps, CI/CD
Tools: Visual Studio, Postman, Swagger, Power BI, Fiddler, JIRA

PROFESSIONAL EXPERIENCE

Software Developer | Click Crawl Media Private Limited | April 2024 – Present

1. Company Website (WordPress & Corporate Projects)

- Developed and maintained ClickCrawl Media Pvt Ltd's corporate website using WordPress, ensuring responsive design, SEO optimization, and cross-browser compatibility.
- Implemented dynamic content management, custom navigation menus, and analytics integration, enhancing user engagement and website performance.
- Supported company digital presence across multiple services including Web Development, App Development, Digital Marketing, AI & ML solutions, and Cloud Services.
- Collaborated with design and marketing teams to highlight key services and portfolio projects, reflecting company's innovative solutions for clients.

2. AMC College Project

- Developed a college management web application using ReactJS, RESTful APIs, MySQL, and Bootstrap for student, faculty, and admin management.
- Implemented CRUD operations, authentication, and role-based access control for admins, faculty, and students.
- Designed interactive dashboards, timelines, and responsive UI, improving usability and navigation efficiency.
- Optimized API performance and front-end rendering to ensure smooth user experience across devices.
- Integrated data visualization and reporting features for student and faculty performance tracking.

3. HRMS (HR Management System) Project

- Developed a full-stack HRMS web application using ReactJS, RESTful APIs, ASP.NET MVC, SQL Server, and Bootstrap to streamline HR operations.
- Implemented employee management, attendance tracking, leave management, payroll processing, and role-based access control for admins, managers, and employees.
- Integrated secure authentication (JWT tokens) and data validation to ensure privacy and compliance.
- Built interactive dashboards and reports for HR analytics, visualizing employee performance, attendance trends, and leave statistics.
- Optimized database queries and front-end performance to handle large employee datasets efficiently.
- Collaborated with team members in Agile/Scrum environment, using Git, JIRA, and Azure DevOps for version control, project management, and CI/CD deployment.

Technologies & Tools: ReactJS, ASP.NET MVC, REST APIs, SQL Server, Bootstrap, JWT, Git, Azure DevOps, JIRA

EDUCATION

Bachelor of Computer Science (BSc CS) – Marathwada University, India | 2021

Master of Computer Applications (MCA) – Marathwada University, India | 2023
